

Consolidador Aéreo
Internacional

More than 26 years

Making your work easier and more profitable

About Us

Grupo VDT International Air Consolidator is a leading international consolidator in the sale and issuance of airline tickets, with solid experience in the sector since 1997, when we first began operations in Madrid, Spain. Over the years, we expanded our presence to the Dominican Republic, Colombia, Ecuador, and the United States.

In addition to our air consolidator services, we operate both B2B and B2C platforms that cater to the sale of airline tickets as well as vacation services, including hotels and holiday packages. We also manage a Destination Management Company (DMC) from our offices in Colombia, offering customized travel experiences, and serve as a General Sales Agent (GSA) in the Dominican Republic for various airlines, further expanding our global reach.

While Latin America is our main market, our company embraces a global perspective. We highlight our proficiency as a multi-GDS company, offering direct connections to industry-leading platforms such as Amadeus, Sabre, Travelport, and Kiu System. Additionally, we provide API and NDC connections, allowing us to customize our services and integrate seamlessly with your specific requirements.
